

## **Cell Phone and Electronic Communication Policy**

You may use your cell phones, personal digital assistants (PDAs) and MP3 players in your dorm room during break times. These breaks will be rare since the Girls State program is so packed with activities. Cell phones, PDAs – either for calls or text messaging – and iPods or other MP3 players will **not** be allowed in assemblies, meetings or other Girls State activities. Cell phones have been very distracting during the last few sessions of Girls State. Use of cell phones for text messaging during sessions will not be tolerated. Phone Jacks are available in the dorm rooms, so you may bring a phone from home. Phones at Georgia Southern can be made accessible for emergency situations. Internet and e-mail access will not be available.
